1987 IN NEW YORK STATE

New York State's economy turned in another strong performance in 1987. Business activity was up by a healthy margin from 1986, with both construction and finance-insurance-real estate having particularly good years. Nonfarm employment continued to rack up an unbroken string of new monthly highs at the same time that unemployment rates were dropping to the lowest levels since 1970. Manufacturing continued to show gains in activity (although employment was falling off), while transportation-communications-public utilities had a turnabout and registered gains in both activity and employment.

National Trends

The Nation's economy grew at a generally moderate rate in 1987, but fourth-quarter data were more encouraging. With the dramatic economic events that transpired over the course of the year, including the steep fall in the value of the U.S. dollar against other major currencies and the record drop in the stock markets in October, there were numerous and varied predictions as to where the economy was going. Nevertheless, the lower dollar appears to be stimulating exports of U.S. products and the string of annual record U.S. trade deficits may have peaked out in 1987.

Gross National Product rose by only 3.4 percent in 1987, the third year of less than robust growth. For the year, current dollar GNP was estimated at $4,526.7 billion. Personal income totaled $3,768.1 billion in 1987, up 7.0 percent from a year earlier. With inflation running at 3.7 percent in 1987, this amounted to a moderate gain in purchasing power.

Business Activity Up on Wide Front

The Index of Business Activity in New York State rose to record levels in 1987, reaching a high of 129 (1977=100) in August. Despite two small successive declines in October and November, the Index returned to 129 again in December. For the year as a whole, the Index of Business Activity averaged 127, an increase of five points from the 1986 average. Vigorous advances were registered in construction and finance-insurance-real estate, with wholesale trade and services also showing healthy growth. Relatively modest gains were reported in the factory output and transportation-communications-public utilities components of the Index. Only retail trade failed to participate in the upswing.

Personal Income Up

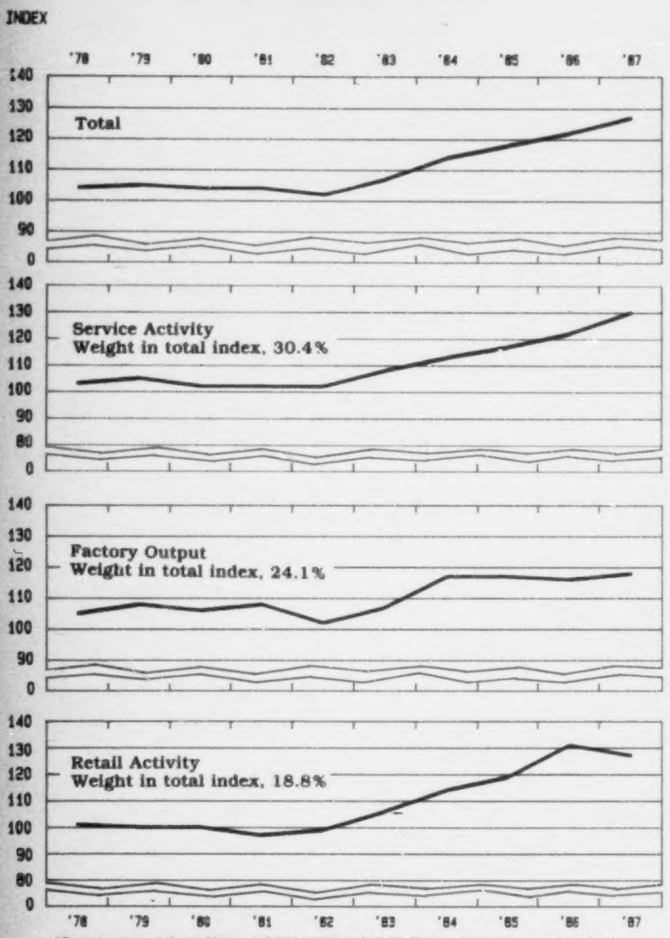
Personal income in New York State rose to $320.9 billion in 1987, an increase of $21.6 billion, or 7.2 percent, from 1986. Once again, New York's rate of income growth has bettered the national advance (+7.0 percent), a pattern that has been unbroken since 1981.

On a per-capita basis, New York residents ranked sixth in the Nation in 1987, with an average income of $18,004, compared with the U.S. average of $15,481. The rate of increase was 7.0 percent from 1986, substantially above the national rate of 6.0 percent. Only nine states had higher percentage increases than New York.

Further Improvements in Employment and Unemployment

Nonfarm wage and salary employment rose to an average of 8,052,900 in 1987, an increase of 148,500 from 1986, with every month up sharply from the year-earlier level. Services (+80,000) accounted for a major share of the increase, with finance-insurance-real estate (+33,300), construction (+20,600), retail trade (+19,700) and government (+17,500) also contributing substantially. The gains in wholesale trade (+4,900) and transportation-communications-public utilities (+2,400)

INDEX OF BUSINESS ACTIVITY and its Major Components[1] NEW YORK STATE, 1978-1987 (1977 = 100)



[1] Components not charted here, and their weights, include Finance, Insurance and Real Estate Activity (8.8%); Transportation, Communications, Public Utilities Activity (8.4%); Wholesale Activity (5.2%); and Construction Activity (4.3%).

were of a lesser magnitude. Only manufacturing failed to participate in the advance, posting a sizable decline (−29,700).

Unemployment registered a sharp drop in 1987, averaging out at 412,000; this represented a decline of 114,000, or 22 percent, from 1986. The unemployment rate for the year fell to 4.9 percent from the 6.3-percent level recorded in 1986. This was the lowest unemployment rate in the State since 1970 and significantly below the national rate of 6.2 percent. In 1986, the U.S. jobless rate averaged 7.0 percent.

Area Economic Conditions— Generally Robust Gains

All area business activity indexes showed gains in 1987, the largest of which took place in the Glens Falls (+15 points), Orange County and Elmira (+9 each), Westchester-Rockland-Putnam and Poughkeepsie (+7 each) areas. With the exception of New York City (+3), gains in the remaining areas were clustered in the four-to-six-point range.

Employment gains were also reported in all major labor areas. The downstate gains were as follows: the eight-county New York City Area (+55,600) and Nassau-Suffolk (+26,200). Upstate the largest increases were reported in the Buffalo-Niagara Falls (+14,100), Albany-Schenectady-Troy (+10,700), Rochester (+8,100) and Syracuse (+7,000) areas.

Manufacturing Output Up; Employment Shrinks

Manufacturing continued to turn in a mixed performance, as the index of factory output advanced by two points for the year to 118 (1977 = 100), while average factory employment was off by 29,700 to 1,221,900. However, the spread between 1986 and 1987 employment levels began to improve in July, so that by December, the monthly year-to-year deficit was only 11,800, compared to 41,200 in January.

Additionally, employment in the second half of 1987 showed improvement from the earlier part of the year.

Year-to-year decreases in job levels occurred in most individual manufacturing industries in both durable and nondurable goods. The bulk of the cutbacks were concentrated in durables, which had 28,000 fewer employees in 1987. Particularly large losses were posted in nonelectrical machinery (−11,000), instruments (−5,900), electrical machinery and electronics (−4,800), and transportation equipment (−3,200). Gains were limited to furniture and fixtures, lumber and wood products, (+700 each) and stone, clay and glass (+400). In nondurables (−1,700), the largest losses were in chemicals and apparel (−1,900 each) and leather (−1,300). Sizeable advances, however, took place in printing and publishing (+3,500) and rubber and plastics (+1,200) with fractional increases in paper and food products (+100 each).

The average weekly earning of manufacturing production workers employed in New York State rose from $395.81 in 1986 to $402.59 in 1987, an increase of 1.7 percent — less than half of the rate of inflation. At 39.9 hours, the average factory work week in 1987 was unchanged from a year earlier.

New Plants

Many new manufacturing plants and expansions in New York State were announced in 1987. Among these were the following:

Anheuser-Busch Companies, Inc. is building a new 325,000-square-foot branch plant for its Metal Container Corp. subsidiary in Newburgh (Orange County), to be operational by late summer of 1988. The facility will employ up to 180 people and produce aluminum spin-neck beverage cans for Busch breweries in Baldwinsville, New York; Newark, New Jersey; Merrimack, New Hampshire and other customers. The project includes $50-million worth of new state-of-the-art can manufacturing machinery.

Boccard Industries, Inc. is constructing a new 150,000-square-foot plant in Kingston (Ulster County) and will relocate its concrete pipe manufacturing operations from Bay Shore (Suffolk County). Total project cost is $7 million and 40 new jobs will be created.

Carborundum Co. is relocating part of its ceramic fibers operations from Niagara Falls (Niagara County) to a new 143,750-square-foot plant under construction in Tonawanda (Erie County). The $9.1-million facility will be completed by October 1988 and allow 66 workers to transfer from Niagara Falls. The vacated space will probably be used for storage. Carborundum is a subsidiary of British Petroleum Co. PLC.

Dunkirk Ice Cream Co., Inc. is expanding its Dunkirk (Chautauqua County) plant by constructing an addition and purchasing new machinery and equipment. The $11.0-million project will create 125 new jobs.

General Motors Corp. is expanding its C-P-C Group plant in North Tarrytown (Westchester County) to preserve its current work force through the 1990's. The $94.5-million project includes an 86,587-square-foot plant addition and $80.0 million for new equipment, as the plant converts production from the Buick Century and Pontiac 6000 to a new front-wheel drive plastic-body minivan.

Johannes Heidenhain GmbH of West Germany is constructing a new $5.0-million plant for its Acu-Rite, Inc. subsidiary in Elliott (Chautauqua County) to produce digital readout systems and encoders. The 76,350-square-foot plant will replace space presently owned or leased in Jamestown and stabilize the work force. Completion is set for November 1988.

Knogo Corp. relocated its world headquarters, sales and manufacturing operations from Hicksville (Nassau County) to Hauppauge (Suffolk County). The $8.0-million, 68,000-square-foot facility replaced a 40,000-square-foot complex and created 98 new jobs. Knogo produces burglar and security systems.

Magna International, Inc. of Newmarket, Ontario (Canada) is constructing a $14.0-million automobile seat plant for its Integram Group in Harriman (Orange County). The 130,000-square-foot facility will employ 200 people and produce seats for the General Motors assembly plant in Tarrytown (Westchester County). Completion is slated for 1988.

Minolta Camera Co., Ltd. of Osaka, Japan is building a $21.4-million plant in Goshen (Orange County) for its new subsidiary, Minolta Advance Technology, Inc. The plant will produce copier toner and house Minolta's North American headquarters. Operations should begin by mid-1989 and employ up to 100 people.

Mobil Corp. is constructing a new $5.0-million facility at its Mobil Chemical Co. complex in Canandaigua (Ontario County) to produce clear plastic containers for the fast-food industry. Up to 120 new jobs will be created when the 32,000-square-foot plant is completed in January 1988.

Moog, Inc. is conducting a $16.5-million expansion at its Erie County facilities in East Aurora, Elma and Orchard Park. The project will add 168,600 square feet and 360 jobs to Moog's Space Products, Aircraft Controls and Electronics and Systems Divisions by 1989.

Stora Kopparbergas Bergslags AB of Falun, Sweden is expanding its Newton Falls Paper Mills, Inc. in Newton Falls (St. Lawrence County). The $30.0-million project includes a 50,000-square-foot addition to the plant, which produces coated printing paper.

Construction Has Banner Year

Construction was a spectacular performer in terms of both activity and employment advances. Starting in March, the index of construction activity achieved a pace that kept it well above year earlier levels, and the result was a dynamic 14-point increase for the year to 142 (1977 = 100). The employment picture was also robust, as the average industry job total jumped by 20,600, or 6.7 percent, to 329,500. This marked the third consecutive year that the industry's employment climbed to new peaks in the nearly 50-year period for which data are available.

The value of construction contracts awarded in New York State in 1987 totaled $14.9 billion, a 30-percent rise from 1986. Nonresidential contracts surged by 49 percent, while nonbuilding dollar volume jumped by 31 percent; the increase in the residential sector was 13 percent. Downstate scored a 44-percent advance, with nonresidential and nonbuilding contracts soaring by over 60 percent each. Upstate the increase amounted to a more modest 12 percent.

Trade Sectors have Mixed Trends

Retail trade was unable to sustain the vigorous pace it set in 1986, and consequently, the index of retail activity fell by four points to 127 (1977=100). In 1986, sales were stimulated by several factors, including the rush to capitalize on the last year of sales tax deductibility resulting from the overhaul of Federal income tax laws. Total retail sales in New York State in 1987 rose sluggishly to only $107.7 billion from $105.5 billion in 1986. Factoring in the rate of inflation, this was, in real terms, a decline. Nevertheless, retail trade employment kept growing and with 19,700 new jobs, averaged 1,214,700 for the year.

Wholesale trade on the other hand had a hefty eight-point rise in its index to 126 (1977=100). Employment growth, however, was on the low side — up 4,900 to 484,300.

Services and Other Industry Sectors— All Post Gains

Services once again provided a hefty boost to the overall State economy, with the index of service activity advancing by eight points to 130 (1977=100) and employment rising by 80,000 to 2,201,000. Year by year, the service industries have accounted for a growing share of the State's nonfarm employment — in 1987 it was up to 27.3 percent.

Another sector which contributed to economic resurgence in 1987 is finance-insurance-real estate. For the year, the activity index for this group jumped by 12 points to 173 (1977=100). Rounding out the favorable picture was the increase in employment — an advance of 33,300 to 791,300. Neither employment nor activity data for the fourth quarter reflected any measurable evidence of the stock market crash.

Reversing the generally weak pattern of recent years, transportation-communications-public utilities activity was able to record a three-point advance to 84 (1977=100). Employment also moved to the plus column with a 2,400 increase to 404,600.

1987 was a record year for travel and tourism activity in New York State. Visitor spending exceeded $17 billion, up 10.3 percent from 1986. This spending helps support the close-to 700,000 jobs in approximately 53,000 primary travel-related businesses in the state. In New York City, estimated 1987 traveler expenditures rose by 8.6 percent over 1986. Upstate, summer travel spending rose by 11.2 percent, after virtually no change in 1986.

Visitors from overseas and Canada comprise an important part of the State's travel market, and 1987 saw strong growth in both areas. New York welcomed about 3.5 million overseas visitors in 1987, up 26.5 percent from the previous year. Similarly, Canadian border crossings rose 8.6 percent, and Canadian overnight visitors increased 11.6 percent to 2.4 million.

[1] Includes employment and payroll reported at central administrative offices and auxiliary units.

MANUFACTURES, 1986, 1985 and 1984

Source: United States Bureau of the Census, Annual Survey of Manufactures, 1986, 1985 and 1984.

All Employees is an average of production workers who worked in the pay period nearest the mid-month in March, May, August and November plus all other employees in mid-March. ***All Employees*** and ***Payroll*** include persons working at central administrative offices and auxiliary units. ***Production Workers*** include workers up to the foreman level who make, inspect, store and ship the firm's products, or who do work closely associated with these functions, such as plant maintenance, record keeping and product development. It excludes supervisors above the working foreman level, force-account construction workers, salesmen, deliverymen, and advertising, service, installation, credit, cafeteria, professional, technical and administrative workers. Production workers' ***Hours*** are all those worked or paid for, including actual overtime hours, but excluding hours of paid vacations, holidays, or sick leave, when the employee was not at the plant. ***Wages*** are the portion of the payroll paid to production workers. ***Value Added by Manufacture*** is the value of shipments (including resales), adjusted for the net change in inventory of finished goods and work-in-process, less the cost of materials, supplies, containers, fuels, goods purchased for resale and contract work. ***Value of Shipments*** is the received or receivable net selling values, after discounts and allowances, excluding freight charges and excise taxes. Much duplication occurs in this figure, however, because the products of many establishments are the materials of others. ***New Capital Expenditures*** include, for plants operating or under construction, expenditures made during the year for new structures and additions (including major alterations, capitalized repairs and improvements), and for new machinery and equipment or capitalized repairs to old, but do not include expenditures for land or "used" plant and equipment, nor expenditures by owners of loft buildings or other leased plant space, nor the value of plant and equipment used by the manufacturer but owned by another organization, including Federal or Local Governmental agencies.

CONSTRUCTION CONTRACTS Source: F.W. Dodge Division, McGraw-Hill Information Systems Company. Proprietary data provided by special permission.

The value of construction contracts includes not only actual awards, but also the value of certain commitments to build, not covered by contract, as in residential developments. The contracts precede actual construction. Included under *Nonresidential Buildings* are such structures as factories, stores, office buildings, banks, schools, service stations, prisons, churches, warehouses, hospitals and airport buildings. *Residential Buildings* include hotels, motels and dormitories as well as one- and two-family houses and apartment buildings. Under *Nonbuilding Structures* are such heavy engineering projects as streets and highways, bridges, sewers, water-supply systems, airports (but not the buildings) and electric light and power systems.

EMPLOYMENT Source: New York State Department of Labor

Estimates of employment in nonagricultural establishments are made for the State and the larger labor areas. The industries for which estimates are provided individually are the principal ones in each area. The totals do not include the self-employed, the military, farm workers and the employees of international organizations or private households.

Employment covered by unemployment insurance is less inclusive. It excludes not only the groups omitted from nonagriculture employment, but also workers for employers with less than $300 and those for household workers with less than $500 in payroll for a calendar quarter, and for interstate railroads and government. Data from this source ordinarily become available six to eight months later than the estimates of nonagricultural employment. However, they provide greater detail by industry than is available from the estimates, and give separate figures for each county—those combined in the multi-county industrial areas of the nonagricultural employment estimates as well as the smaller counties outside these areas. For any industry group, data are withheld in any county, metropolitan area or economic area for which the total might disclose information about a single establishment. In any county or area with only one nondisclosable industry, information has been withheld from a second to prevent subtraction of detail from the total to derive a withheld figure. Data in the table ***Business Establishments, March 1987*** are the reporting units covered by unemployment insurance distributed according to the number of employees per unit. A reporting unit is normally a single place of business, but it may be only part of one when functions in more than one industry, carried on by a firm at one location, are reported as separate units, and it may be several places of business when the branches of a firm, within one county and in the same industry, are reported as one unit.

The classification by industry in both series is that of the 1972 Standard Industrial Classification; employment in central administrative offices, research laboratories and other auxiliary facilities of manufacturing companies is included in the appropriate manufacturing industries; the totals include some duplication because dual job holders are counted twice; and all the figures are as of the place of employment, not the place of the residence.

1. For metropolitan area definitions, see page 22.

NOTE: The New York State totals include employment which was not assigned to any county; totals and subtotals for specific industries include employment withheld for counties or areas, to avoid disclosure. For counties or areas where employment for some industries is withheld, the amount is combined with employment in establishments not classified in a specific industry in the "Other" column.

PERSONAL INCOME

Source: United States Department of Commerce.

Total personal income consists of private and government salary payments (both cash and in kind) before deductions for income and other direct personal taxes, but after deductions for social insurance programs. Also included are receipts from other labor income, farm and nonfarm proprietor's income; interest, net rents, dividends and transfer payments.

Per-capita income is obtained by dividing total personal income by population estimates, provided by the U.S. Bureau of the Census.

Research bulletins, which contain detailed information on personal income, are prepared annually by the New York State Department of Economic Development.

MISCELLANEOUS

Sources: New York State Department of Education; Federal Deposit Insurance Corporation, *Data Book, Operating Banks and Branches, June 30, 1987*; New York State Department of Motor Vehicles.

High School Graduates, 1987 are all public, parochial and other private school pupils receiving diplomas during that school year. This includes those who received a diploma after attending evening or summer sessions, and those who graduated in February, as well as regular June graduates. Also included in the total are 36,929 persons who passed high school equivalency tests. *Bank Deposits, June 30, 1987* include *Demand* deposits of individuals partnerships and corporations in all commercial banks and *Time* deposits, which include savings and other time deposits of these groups in commercial banks plus savings deposits in all savings banks; governmental and interbank deposits are included in these totals. Deposits of branch banks are included in the county of the branch. The New York State total *Motor Vehicle Registrations, 1987* is larger than the sum of the county figures because it includes vehicles owned by out-of-state residents; county and area totals have been adjusted to a by-resident basis. *Commercial* motor vehicles are trucks only. *Other* motor vehicles include buses, taxis, ambulances, trailers, farm vehicles, mopeds, rental cars and motorcycles. The total is based on when registration fees were paid, rather than on when they were due. The distributions between *Commercial* and *Other* are partially estimated.
